What the New York City Folks say of DR. M'LANE'S CELEBRATED VERMIFUGE. New York, August 25, 1852.-This is to certify that I am well equainted with a man fifty years of age, for many years a resident of this city, who has been at times extremely ill, but could not tell from what cause, unless it was worms. He told his attending physician his suspicions, but the physician at once ridiculed the idea, and refused to attend him any longer. His son then mentioned Dr. M'Lane's Vermifuge, and asked him if he would take it; his reply was -I must take something to get relief or tie They at once procured a bottle of Dr. M'Lane's celebrated Ver nifuge, and took one half at one dose. The result was, he passed upwards of three quarts of worms, cut up in every form. He got well immediately, and is now enjoying most excellent health; and, like the good Samaritan of old, is endeavoring to relieve his neighbors. He makes it his business to hunt up and select all cases similar to his own, that may be given over by the regular physicians, and induces them to try Dr. M'Lane's Vemifuge. So er he has induced more than twenty persons to take the Vermifuge, and in every case with the most happy results. He is well satisfied that Dr. M'Lane's Vermituge is far superior to any other known remedy, and that if more generally known would not fail to save many valuable lives. For further particulars inquire of Mrs. Hardie, 1242 Cannon street, New York City.
